

a **brighter approach** to financial analysis, risk management, and loan review

Enlighten Financial has made it our business to shed light on the complex financial landscape, and lead clients in the right direction.

Who Is Enlighten Financial?

Enlighten Financial, llc, founded in 2008, works with financial institutions to mitigate risk and ensure policy compliance through our loan review, credit administration and commercial underwriting services. We work with financial institutions across the region to assist them in managing the credit risk within their loan portfolios.

our services

Loan Review

Our proprietary loan review services help financial institutions ensure compliance with loan policy and provide effective identification and management of credit risk within the loan portfolio. Our team has worked with numerous financial institutions as a part of their overall risk management solution.

Due Diligence

Our approach to due diligence will provide you with critical insight into the target loan portfolio. Our process is efficient and effective to provide you the information you need to make strategic decisions regarding the acquisition of a loan portfolio.

Credit Administration Consulting

Our credit administration consulting services help financial institutions establish sound loan policies and approval processes that reduce risk and facilitate the desired credit culture of the financial institution.

Commercial Credit Underwriting

It takes a keen eye for detail to ensure the best decision is made in the credit approval process. The underwriters at Enlighten Financial analyze a company's financial statements and global cash flow to assist your team in making an accurate credit decision. We apply stress testing in our approach to ensure credit is strong even when times are tough.
