

know exactly what to expect when partnering with Enlighten Financial

Clients of Enlighten Financial receive the kind of foresight that only a second set of eyes can provide. We will shed light on your financial institution and guide you through successful decision-making.

About Enlighten Financial

Enlighten Financial, LLC was founded in 2008 to work with financial institutions regarding their loan review and loan portfolio management needs. We have years of hands-on commercial lending experience and risk management consulting; our services will assist your management team in the accurate identification of credit risk to allow you to avoid losses and appropriately price the risk within the loan portfolio.

our promise to clients

Timeliness

We take pride in discussing and reporting our findings and recommendations in real time, with minimal disruptions to normal operational activities.

Confidentiality

Enlighten Financial takes your trust and your business seriously. All client information is protected by several levels of security including military-grade encryption and the latest in document protection technology.

Open & Honest Feedback

Our focus is to provide financial institutions with industry-leading, common sense risk management solutions. We encourage direct feedback in order to improve results and help drive meaningful risk management discussion.

Effective Communication

Communication between our clients and our team is maintained throughout our consultations, our underwriting services, and our loan review process. We strive to provide clear and concise information, progress reports, and practical applications. Our team members are experienced and responsive to our clients' needs.
