mortgage quality control

Quality control is a vital part of the mortgage lending function for financial institutions. We work within the unique needs and goals of each client, and provide the expert guidance needed to build a sustainable and effective quality control plan.

Enlighten provides experienced professionals to help financial institutions manage risk and maintain strong credit administration practices. This experience assists our clients in staying ahead of the ever-changing financial landscape and addressing potential problems early.

dedicated services

Enlighten services are dedicated to risk management for financial institutions. We utilize our proprietary review process to deliver our services efficiently and effectively.

strength of the team

Enlighten mortgage professionals each bring nearly 20 years of mortgage experience to your institution along with the current, real-time experience of working with our clients and the regulatory and other challenges they face. We work as your partner for continuous improvements within your policies and processes.
